

The LindaAI Guide Library

Everything you need to wire up your crew

Howdy, Boss. This is your setup library — short, friendly guides that turn on every part of LindaAI. Start at the top and work down, or jump to what you need. Each one takes about 5–10 minutes. Let's goooooo!

Start here

Getting Started With LindaAI — Activate your license, meet your 18-agent crew, run your first command, and set up your brain folder. *Read this first.*

Windows Quick Start — On Windows? Two clicks and you're riding — no terminal, no PowerShell. Unzip and double-click. *Windows folks start here.*

Connect your tools

Connect Your Email — Wire Gmail, Google Workspace, or Outlook to LindaAI so Sheriff can run your inbox, draft replies, and triage every morning.

Chat From Your Phone (Telegram) — Put LindaAI in your pocket. Text your crew from anywhere and they go to work on your machine back home.

Let Linda Text People (SMS via GoHighLevel) — Two-way business texting with an approve-before-send gate. Run transaction coordination, seller follow-up, and support.

Turn On Voice — Let LindaAI speak her responses out loud. Hands-free mornings, driving, deal reviews.

Auto-Publish Your Content (Postiz) — Let Holler & Pony publish and schedule your posts across every platform, with an approve-before-send gate.

How to use these guides

1. Each guide is self-contained — you don't need to read them in order (except Getting Started)
2. Every setup keeps **you the Boss** — LindaAI never sends anything without your approval
3. Stuck? Email support@send.lindaai-brain.com and we'll get you riding

The LindaAI promise

You own your install. Your data stays yours. Your crew works for you. That's the family way. Now let's get you set up. Yeeee Hawww.
